ENGLISH:

- 1) In *The History of Human Rights*, Ishay suggests that there are some clear boundaries to incorporating women's rights as human rights across the globe. Describe the three key historical moments for women's rights as human rights. What are the unique human rights violations that women face? Then, describe some of the challenges in including other rights under the umbrella of women's human rights.

- 2) Ishay discusses the challenges of Human Rights in the 21st Century. Name two of these challenges. How does she say human rights will evolve over the next decade? How will human rights and global civil society evolve? With the steps we are taking, will there ever truly be justice for all, or is human rights for all unattainable? Use examples from Ishay, and one from class discussions to summarize the future of human rights.
