Exam in 4507 and 6083 Ecotourism: theories and concepts, autumn 2013

The exam contains four parts. It is noted how much each part counts compared to the totality.

Part I (counts 25%):

Please elaborate:

- a) What is ecotourism and which criteria does it consist of?
- b) What are the differences between ecotourism and sustainable tourism, wildlife tourism and nature-based tourism?

Part II (counts 25%):

What is certification in ecotourism and why is it important? Please elaborate and give examples when appropriate.

Part III (counts 10%):

What are the differences between soft- and hard ecotourists?

Part IV (counts 20%)

What are the differences between public / private protected areas. Give some reasons for the increase of private protected areas and what are the different benefits attached to each?

Part IV (counts 20%):

What are the impacts of ecotourism? Please elaborate and give examples.
